Palm Springs asking-price reductions and recorded days on market

Current edition. A later snapshot may differ; this file describes only the date above.

HEADLINE OPTIONS

1. 45.7% of Palm Springs condominiums for sale are asking less than their original list price
2. Seller Blink Rate™ in Palm Springs: 45.7% of condominiums list below original asking, against 43.1% across Palm Beach County
3. Buying in Palm Springs? 32 of the 70 condominiums for sale are asking below their original price, by a median $10K

LEDE

PALM SPRINGS, Fla., November 1, 2026 - 45.7% of the 70 condominiums listed for sale in Palm Springs (32 listings) have a current asking price below their original list price, according to PBP Real Estate's analysis of BeachesMLS listing data as of November 1, 2026. Among those 32 reduced listings, the median reduction is 10.3% (about $10K). Houses: 25 for sale, below the 30-listing floor, so no percentages are reported for them.

NUT GRAF

For active Palm Springs condominiums, the median recorded CumulativeDaysOnMarket value is 134 days and the median recorded DaysOnMarket value is 92 days, each calculated from non-missing values in that field (70 and 70 listings). 20% of all active condominiums have both fields recorded and a cumulative value greater than their DaysOnMarket value; this comparison does not establish a relisting event. 5 Palm Springs condominiums are under contract (Pending or Active Under Contract), 2 of them with a recorded asking price below original; fewer than 30, so no percentage is reported. These asking-price fields do not disclose the agreed contract price. Across Palm Beach County the shares asking below original are 43.1% for condominiums and 40.7% for houses; Palm Springs condominiums are 2.6 points above the county share.

FACT BOX

Active condominium listings, Palm Springs	**70**	November 1, 2026
Share asking below original list price, condominiums	**45.7% (32 of 70)**	November 1, 2026

Price pairs recorded / missing; unchanged / above original, condominiums	**70 / 0; 37 / 1**	November 1, 2026
Median reduction among the 32 reduced condominiums	**10.3% (about $10K)**	November 1, 2026
Active single-family listings, Palm Springs	**25 (below the 30-listing floor; percentages not reported)**	November 1, 2026
Median recorded CumulativeDaysOnMarket / DaysOnMarket, condominiums	**134 / 92 days (from 70 / 70 recorded values)**	November 1, 2026
Condominiums with recorded CumulativeDaysOnMarket over 90 days	**62.9% (44 of 70 with a recorded value)**	November 1, 2026
Condominiums under contract (count only; fewer than 30)	**5, 2 asking below original**	November 1, 2026
Palm Beach County share asking below original, condominiums / houses	**43.1% / 40.7%**	November 1, 2026
Conditions read (PBP rule, disclosed in method)	**Condominiums: Between the comparison thresholds**	November 1, 2026

Share of active Palm Springs condominiums asking below their original list price, by current asking-price band, November 1, 2026. Bands with 10 to 29 listings marked small; under 10 show a count only. Source: BeachesMLS via PBP Real Estate.

Chart data (aggregate): Horizontal bar chart of the share asking below original by current asking-price band, condominiums: Under $250K 46.4% (32 of 69); $250K to $500K 1 listed, count only; $500K to $1M 0 listed, count only; $1M and up 0 listed, count only.

METHODOLOGY

Method, in plain English. What we counted: active and under-contract residential listings whose MLS City field is Palm Springs, permitted for internet display in PBP Real Estate's BeachesMLS data feed, in one snapshot pulled 2026-11-01 08:19:01 UTC (data as of November 1, 2026). The kit reports counts, medians, shares and comparisons calculated from recorded MLS fields; it does not estimate any property's value. Asking below original: a listing's current ListPrice is lower than its OriginalListPrice in that snapshot. This is a comparison of two recorded prices at this snapshot, not a price history; listings not below original may be unchanged, raised or missing a price (37 unchanged, 1 above original, 0 without both prices among condominiums). The median reduction is the middle value among reduced listings only, in percent and in dollars separately; it is reported when at least 10 listings are reduced. Days on market: DaysOnMarket and CumulativeDaysOnMarket are reported as recorded in the MLS snapshot, each median over the listings with a value in that field; the over-90-day share and the distribution chart use listings with a recorded CumulativeDaysOnMarket value. These fields are not an independently reconstructed property history, do not verify whether or how often a property was relisted, and do not establish how any portal displays days on market. Price bands use the CURRENT asking price; shares within a band are percentages of that band's listings; bands with 10 to 29 listings are marked small and bands under 10 show a count only; a tie is declared at the reported precision. Segments follow the recorded tax legal description and the shared MLS classification rule: a listing whose legal description records a condominium is a condominium whatever its MLS subtype (townhouse, villa or single-family forms included); Condominium or Stock Cooperative subtypes stay in the condominium segment when the legal description is silent

or records a parent parcel, including new-build units; Townhouse and Villa listings not classified as condominiums are reported in the HOA Fee Index and are outside both segments here; houses are the remaining SingleFamilyResidence listings. House and condominium statistics are never combined. These are analytical classifications of recorded fields, not a determination of any property's legal regime. Under contract means Pending or Active Under Contract; under-contract percentages need at least 30 such listings, otherwise counts only. Publication floor: 30 active listings in a segment; 30 to 39 is marked small. Houses are below the floor and appear as a count only. Sample sizes: 70 condominiums, 25 houses, 5 condominiums under contract. Geography is the MLS City field, not a verified municipal boundary. County comparisons use listings whose MLS record is in Palm Beach County. Seller Blink Rate™ is PBP Real Estate's name for the share of active listings asking below their original list price; it describes recorded asking prices, not seller intent or market health. Conditions read: How the read works: the peer baseline is the median of published city shares in the same current median-asking-price tier, houses and condominiums separately. The lower-share label requires a below-original share at least 3 points under baseline and at least 65% of under-contract listings (minimum 10) not recorded as below original. That complement may include unchanged, raised or missing-price records; it is not a history measure. The higher-share label requires 3 or more points above baseline; other results are between the rule's thresholds. With fewer than four peer cities, the county is the baseline and can include the city. Samples of 30–39 active listings require caution. Snapshot comparison only, not speed, causality or a forecast. Journalists may request the aggregate source table behind this kit (counts and medians by segment and band; no listing-level MLS records) from info@pbpre.com or 561-395-8418; nothing is gated.
