

CORRECTED EDITION R1 - JOURNALIST PACKAGE - DATA AS OF SEPTEMBER 7, 2026 (BEACHESMLS PULL 2026-09-07T12:06:07+00:00)

Florida City asking-price reductions and recorded days on market

CORRECTED EDITION r1 - Data as of September 7, 2026. Correction issued September 8, 2026 (2026-09-08). Correction and reissue r1, revised 2026-09-08. Listings as of 2026-09-07. The original edition was frozen 2026-09-07T19:58:33+00:00. The original earlier source pull has not been found. Figures were recomputed from a retained later same-day pull retrieved 2026-09-07T12:06:07+00:00; this is not an exact reconstruction of the original snapshot. Use this revised edition, not the superseded files. Cite <https://www.pbprealestate.com/press/florida-city/2026-09/> (corrected edition r1).

Corrected edition r1, issued September 8, 2026 (2026-09-08): figures recomputed from a retained later same-day BeachesMLS pull, not an exact reconstruction of the original snapshot, so they may differ from the superseded files; original edition frozen 2026-09-07T19:58:33+00:00.

HEADLINE OPTIONS

1. 30.6% of Florida City houses for sale are asking less than their original list price
2. Seller Blink Rate™ in Florida City: 30.6% of houses list below original asking, against 37.6% across Miami-Dade County
3. Buying in Florida City? 19 of the 62 houses for sale are asking below their original price, by a median \$20K

LEDE

FLORIDA CITY, Fla., September 7, 2026 - 30.6% of the 62 single-family homes listed for sale in Florida City (19 listings) have a current asking price below their original list price, according to PBP Real Estate's analysis of BeachesMLS listing data as of September 7, 2026. Among those 19 reduced listings, the median reduction is 4.2% (about \$20K). Condominiums: 5 for sale, below the 30-listing floor, so no percentages are reported for them.

NUT GRAF

For active Florida City houses, the median recorded CumulativeDaysOnMarket and DaysOnMarket values are both 28 days (from 62 and 62 listings with a value in each field). Equal medians describe the recorded fields only; they do not establish anything about individual listing histories. 1.6% of all active houses have both fields recorded and a cumulative value greater than their DaysOnMarket value; this comparison does not establish a relisting event. 17 Florida City houses are under contract (Pending or Active Under Contract), 5 of them with a recorded asking price below original; fewer than 30, so no percentage is reported. These asking-price fields do

not disclose the agreed contract price. Across Miami-Dade County the shares asking below original are 37.6% for houses and 37.4% for condominiums; Florida City houses are 7.0 points below the county share.

FACT BOX

Active single-family listings, Florida City	62	September 7, 2026
Share asking below original list price, houses	30.6% (19 of 62)	September 7, 2026
Price pairs recorded / missing; unchanged / above original, houses	62 / 0; 37 / 6	September 7, 2026
Median reduction among the 19 reduced houses	4.2% (about \$20K)	September 7, 2026
Active condominium listings, Florida City	5 (below the 30-listing floor; percentages not reported)	September 7, 2026
Median recorded CumulativeDaysOnMarket / DaysOnMarket, houses	28 / 28 days (from 62 / 62 recorded values)	September 7, 2026
Houses with recorded CumulativeDaysOnMarket over 90 days	27.4% (17 of 62 with a recorded value)	September 7, 2026
Houses under contract (count only; fewer than 30)	17, 5 asking below original	September 7, 2026
Miami-Dade County share asking below original, houses / condominiums	37.6% / 37.4%	September 7, 2026
Conditions read (PBP rule, disclosed in method)	Houses: Lower below-original share than peers	September 7, 2026
Peer group, houses (median asking under \$600K; peer share 40.7%)	Tamarac, Fort Pierce, Riviera Beach, Lauderdale Lakes, North Lauderdale, Lauderhill, Port St Lucie, Greenacres, West Park, Margate, Sunrise, Lake Worth Beach, Miami Gardens, Deerfield Beach, Lantana, Coconut Creek, Boynton Beach, Oakland Park	September 7, 2026

QUOTABLE DATA POINTS

"30.6 percent of single-family homes for sale in Florida City have a current asking price below their original list price; among those 19 reduced listings the median reduction is \$20K."

"Among active Florida City houses, the median recorded CumulativeDaysOnMarket and DaysOnMarket values are both 28 days. These are MLS-recorded fields, not an independently reconstructed listing history."

"17 Florida City houses are under contract in this snapshot, 5 of them with a recorded asking price below original; the group is too small to report a percentage. These asking-price fields do not disclose the agreed contract price."

Share of active Florida City houses asking below their original list price, by current asking-price band, September 7, 2026. Bands with 10 to 29 listings marked small; under 10 show a count only. Source: BeachesMLS via PBP Real Estate.

Chart data (aggregate): Horizontal bar chart of the share asking below original by current asking-price band, houses: Under \$500K 31.4% (11 of 35); \$500K to \$1M 29.6% (8 of 27); \$1M to \$2M 0 listed, count only; \$2M to \$5M 0 listed, count only; \$5M and up 0 listed, count only.

METHODOLOGY

Method, in plain English. What we counted: active and under-contract residential listings whose MLS City field is Florida City, permitted for internet display in PBP Real Estate's BeachesMLS data feed, in one snapshot pulled 2026-09-07 12:06:07 UTC (data as of September 7, 2026). The kit reports counts, medians, shares and comparisons calculated from recorded MLS fields; it does not estimate any property's value. Asking below original: a listing's current ListPrice is lower than its OriginalListPrice in that snapshot. This is a comparison of two recorded prices at this snapshot, not a price history; listings not below original may be unchanged, raised or missing a price (37 unchanged, 6 above original, 0 without both prices among houses). The median reduction is the middle value among reduced listings only, in percent and in dollars separately; it is reported when at least 10 listings are reduced. Days on market: DaysOnMarket and CumulativeDaysOnMarket are reported as recorded in the MLS snapshot, each median over the listings with a value in that field; the over-90-day share and the distribution chart use listings with a recorded CumulativeDaysOnMarket value. These fields are not an independently reconstructed property history, do not verify whether or how often a property was relisted, and do not establish how any portal displays days on market. Price bands use the CURRENT asking price; shares within a band are

percentages of that band's listings; bands with 10 to 29 listings are marked small and bands under 10 show a count only; a tie is declared at the reported precision. Segments follow the recorded tax legal description and the shared MLS classification rule: a listing whose legal description records a condominium is a condominium whatever its MLS subtype (townhouse, villa or single-family forms included); Condominium or Stock Cooperative subtypes stay in the condominium segment when the legal description is silent or records a parent parcel, including new-build units; Townhouse and Villa listings not classified as condominiums are reported in the HOA Fee Index and are outside both segments here; houses are the remaining SingleFamilyResidence listings. House and condominium statistics are never combined. These are analytical classifications of recorded fields, not a determination of any property's legal regime. Under contract means Pending or Active Under Contract; under-contract percentages need at least 30 such listings, otherwise counts only. Publication floor: 30 active listings in a segment; 30 to 39 is marked small. Condominiums are below the floor and appear as a count only. Sample sizes: 62 houses, 5 condominiums, 17 houses under contract. Geography is the MLS City field, not a verified municipal boundary. County comparisons use listings whose MLS record is in Miami-Dade County. Seller Blink Rate™ is PBP Real Estate's name for the share of active listings asking below their original list price; it describes recorded asking prices, not seller intent or market health. Conditions read: How the read works: the peer baseline is the median of published city shares in the same current median-asking-price tier, houses and condominiums separately. The lower-share label requires a below-original share at least 3 points under baseline and at least 65% of under-contract listings (minimum 10) not recorded as below original. That complement may include unchanged, raised or missing-price records; it is not a history measure. The higher-share label requires 3 or more points above baseline; other results are between the rule's thresholds. With fewer than four peer cities, the county is the baseline and can include the city. Samples of 30–39 active listings require caution. Snapshot comparison only, not speed, causality or a forecast. Journalists may request the aggregate source table behind this kit (counts and medians by segment and band; no listing-level MLS records) from info@pbpre.com or 561-395-8418; nothing is gated.
