

CORRECTED EDITION R1 - JOURNALIST PACKAGE - DATA AS OF SEPTEMBER 7, 2026 (BEACHESMLS PULL 2026-09-07T12:06:07+00:00)

Jupiter asking-price reductions and recorded days on market

CORRECTED EDITION r1 - Data as of September 7, 2026. Correction issued September 8, 2026 (2026-09-08). Correction and reissue r1, revised 2026-09-08. Listings as of 2026-09-07. The original edition was frozen 2026-09-07T19:58:33+00:00. The original earlier source pull has not been found. Figures were recomputed from a retained later same-day pull retrieved 2026-09-07T12:06:07+00:00; this is not an exact reconstruction of the original snapshot. Use this revised edition, not the superseded files. Cite <https://www.pbprealestate.com/press/jupiter/2026-09/> (corrected edition r1).

Corrected edition r1, issued September 8, 2026 (2026-09-08): figures recomputed from a retained later same-day BeachesMLS pull, not an exact reconstruction of the original snapshot, so they may differ from the superseded files; original edition frozen 2026-09-07T19:58:33+00:00.

HEADLINE OPTIONS

1. 46.8% of Jupiter houses for sale are asking less than their original list price; 47.1% of condos
2. Seller Blink Rate™ in Jupiter: 46.8% of houses list below original asking, against 43.4% across Palm Beach County
3. Buying in Jupiter? 104 of the 222 houses for sale are asking below their original price, by a median \$99K

LEDE

JUPITER, Fla., September 7, 2026 - 46.8% of the 222 single-family homes listed for sale in Jupiter (104 listings) have a current asking price below their original list price, according to PBP Real Estate's analysis of BeachesMLS listing data as of September 7, 2026. Among those 104 reduced listings, the median reduction is 6.4% (about \$99K). Among the city's 170 condominium listings, 47.1% are asking below their original price, by a median 5.5%.

NUT GRAF

For active Jupiter houses, the median recorded CumulativeDaysOnMarket value is 84 days and the median recorded DaysOnMarket value is 73 days, each calculated from non-missing values in that field (222 and 222 listings). 7.7% of all active houses have both fields recorded and a cumulative value greater than their DaysOnMarket value; this comparison does not establish a relisting event. Of the 94 Jupiter houses under contract (Pending or Active Under Contract), 31 (33%) have a recorded asking price below their original list price; the median reduction among that group is 6%. The remainder are not recorded as below their original list price, which is not a price history. These asking-price fields do not disclose the agreed contract price. Across

Palm Beach County the shares asking below original are 43.4% for houses and 44.6% for condominiums; Jupiter houses are 3.4 points above the county share.

FACT BOX

Active single-family listings, Jupiter	222	September 7, 2026
Share asking below original list price, houses	46.8% (104 of 222)	September 7, 2026
Price pairs recorded / missing; unchanged / above original, houses	222 / 0; 111 / 7	September 7, 2026
Median reduction among the 104 reduced houses	6.4% (about \$99K)	September 7, 2026
Active condominium listings, Jupiter	170	September 7, 2026
Share asking below original list price, condominiums	47.1% (80 of 170)	September 7, 2026
Median recorded CumulativeDaysOnMarket / DaysOnMarket, houses	84 / 73 days (from 222 / 222 recorded values)	September 7, 2026
Houses with recorded CumulativeDaysOnMarket over 90 days	46.8% (104 of 222 with a recorded value)	September 7, 2026
Houses under contract asking below original list price	33% (31 of 94)	September 7, 2026
Palm Beach County share asking below original, houses / condominiums	43.4% / 44.6%	September 7, 2026
Conditions read (PBP rule, disclosed in method)	Houses: Between the comparison thresholds; Condominiums: Higher below-original share than peers	September 7, 2026
Peer group, houses (median asking \$1M to \$2M; peer share 44%)	Wellington, Weston, Davie, Doral, Parkland, Miami Lakes, Delray Beach, Palm Beach Gardens, Palmetto Bay, Boca Raton	September 7, 2026

QUOTABLE DATA POINTS

"46.8 percent of single-family homes for sale in Jupiter have a current asking price below their original list price; among those 104 reduced listings the median reduction is \$99K."

"Among active Jupiter houses, the median recorded CumulativeDaysOnMarket value is 84 days and the median recorded DaysOnMarket value is 73 days. These are MLS-recorded fields, not an independently reconstructed listing history."

"At the snapshot, 33 percent of the 94 Jupiter houses under contract had a recorded asking price below their original list price; the median reduction among that group was 6 percent. The remainder were not recorded as below their original list price, which is not a price history. Agreed contract prices are not inferred from these asking prices."

Share of active Jupiter houses asking below their original list price, by current asking-price band, September 7, 2026. Bands with 10 to 29 listings marked small; under 10 show a count only. Source: BeachesMLS via PBP Real Estate.

Chart data (aggregate): Horizontal bar chart of the share asking below original by current asking-price band, houses: Under \$500K 4 listed, count only; \$500K to \$1M 59% (36 of 61); \$1M to \$2M 42.2% (27 of 64); \$2M to \$5M 48.8% (20 of 41); \$5M and up 36.5% (19 of 52).

METHODOLOGY

Method, in plain English. What we counted: active and under-contract residential listings whose MLS City field is Jupiter, permitted for internet display in PBP Real Estate's BeachesMLS data feed, in one snapshot pulled 2026-09-07 12:06:07 UTC (data as of September 7, 2026). The kit reports counts, medians, shares and comparisons calculated from recorded MLS fields; it does not estimate any property's value. Asking below original: a listing's current ListPrice is lower than its OriginalListPrice in that snapshot. This is a comparison of two recorded prices at this snapshot, not a price history; listings not below original may be unchanged, raised or missing a price (111 unchanged, 7 above original, 0 without both prices among houses). The median reduction is the middle value among reduced listings only, in percent and in dollars separately; it is reported when at least 10 listings are reduced. Days on market: DaysOnMarket and CumulativeDaysOnMarket are reported as recorded in the MLS snapshot, each median over the listings with a value in that field; the over-90-day share and the distribution chart use listings with a recorded CumulativeDaysOnMarket value. These fields are not an independently reconstructed property history, do not verify whether or how often a property was relisted, and do not establish how any portal displays days on market. Price bands use the CURRENT asking price; shares within a band are percentages of that band's listings; bands with 10 to 29 listings are marked small and bands under 10 show a count only; a tie is declared at the reported precision. Segments follow the recorded tax legal description and the shared MLS classification rule: a

listing whose legal description records a condominium is a condominium whatever its MLS subtype (townhouse, villa or single-family forms included); Condominium or Stock Cooperative subtypes stay in the condominium segment when the legal description is silent or records a parent parcel, including new-build units; Townhouse and Villa listings not classified as condominiums are reported in the HOA Fee Index and are outside both segments here; houses are the remaining SingleFamilyResidence listings. House and condominium statistics are never combined. These are analytical classifications of recorded fields, not a determination of any property's legal regime. Under contract means Pending or Active Under Contract; under-contract percentages need at least 30 such listings, otherwise counts only. Publication floor: 30 active listings in a segment; 30 to 39 is marked small. Sample sizes: 222 houses, 170 condominiums, 94 houses under contract. Geography is the MLS City field, not a municipal boundary; 70 of 529 Jupiter listings carry a different county in the MLS record. County comparisons use listings whose MLS record is in Palm Beach County. Seller Blink Rate™ is PBP Real Estate's name for the share of active listings asking below their original list price; it describes recorded asking prices, not seller intent or market health. Conditions read: How the read works: the peer baseline is the median of published city shares in the same current median-asking-price tier, houses and condominiums separately. The lower-share label requires a below-original share at least 3 points under baseline and at least 65% of under-contract listings (minimum 10) not recorded as below original. That complement may include unchanged, raised or missing-price records; it is not a history measure. The higher-share label requires 3 or more points above baseline; other results are between the rule's thresholds. With fewer than four peer cities, the county is the baseline and can include the city. Samples of 30–39 active listings require caution. Snapshot comparison only, not speed, causality or a forecast. Journalists may request the aggregate source table behind this kit (counts and medians by segment and band; no listing-level MLS records) from info@pbpre.com or 561-395-8418; nothing is gated.
